W. T. & CO.

No. 3 SUPPOSITORY MACHINE

SIMPLE IN CONSTRUCTION AND COMPACT.

EASILY AND QUICKLY OPERATED.

WILL MAKE SMOOTH AND SOLID SUPPOSITORIES.

Each Machine is furnished with set of moulds for making Suppositories of three sizes—15 grain, 30 grain, and Vaginal, and with mould for forming Bougies.

The moulds are of brass, and are screwed into the end of the cylinder. They can be easily and rapidly inserted or removed.

In making Suppositories the Cacao Butter containing the medicament is placed in the cylinder, the mould required being first attached; the cylinder is put in position with the end of the mould resting against the movable plate at the end of the machine. The mass is then compressed in the forms by turning the wheel and screwing the plunger into the cylinder. After forming the Suppositories the end plate is removed, and a further turn of the wheel forces them out upon the tray. The operation is then repeated until all the mass has been used.

By a special device the screw on the plunger rod may be released so that the plunger may be pushed into the cylinder or withdrawn from it without the slow process of screwing.

Price Complete with Four Moulds, \$18 00 each.

W. T. & CO. No. 20 TABLET MACHINE.

HEIGHT, 9½ INCHES.

This Machine is designed for making Compressed Tablets in small quantities, and is especially adapted for use by Retail Druggists in filling prescriptions in tablet form.

The machine is simple in construction, compact in shape, and can be easily and quickly operated. It is supplied with two sets of moulds, making both 3-grain and 5-grain Tablets.

Price.....\$12.00 each.

PHENIX COUNTER SCALE.

No. 9.

Iron Box, Japanned in Black, with Ornamental Columns at corners and Gilded Decoration.

GRADUATED MEDICINE SPOON
GLASS.

To measure Tea, Dessert, and Tablespoons.

No. 40.....\$8.50.

Per Gross.

TWO GROSS IN ORIGINAL PACKAGE.

This Spoon can be furnished in lots of two gross and upward with customers' names, etc., pressed in the glass, as an advertisement. The lettering is pressed on the bottom of the spoon, so as to be read from above, but without affecting the smoothness of the bowl inside.

ACME WATER COOLER.

(PATENT APPLIED FOR.)

FOR KEEPING WATER COLD,
PRESERVING CRACKED ICE, ETC.
ESPECIALLY VALUABLE FOR SICK ROOM USE.

DIMENSIONS 5½ x 7 INCHES.

A glass jar, capacity one quart, is inclosed within a double walled can, so constructed as to be a non-conductor of heat. When the can is closed the temperature inside is kept almost unchanged for a considerable length of time. Ice placed in the jar will remain unmelted for many hours, and water may be kept perfectly cold all night.

Owing to its non-conducting quality the can is also well adapted for retaining the heat of broth, gruel, or other food placed in the jar when hot.

The can is lined with zinc, the outside is handsomely japanned, and it is furnished with a folding handle so that liquid may be readily poured out without removing the jar from the can.

Price.....\$15 00

Per Dozen.

THREE STAR NURSER.

FOR NIPPLES.

Graduated in Fluid Ounces.

PATENTED JUNE 19, 1894.

Oval, with sloping sides. No shoulder and no corners; consequently easy to clean. Having a broad base, the bottle is not readily overturned.

8-ounce, Flint Glass..... Per Gross. \$6 00

One Gross in Original Package.

BARCLAY NIPPLE NO. 20.

Having had numerous requests to reduce the price of our Home Nipple to meet price at which Nipples of similar shape are being sold by other parties, and being unable to do so, and at the same time maintain the superior quality of these goods, we have placed on the market a Nipple of similar shape which we call the BARCLAY NIPPLE No. 20.

This Nipple is made of Pure Gum, and will be found in every respect a serviceable article. It is packed 3 Dozen in a Box, and 4 Boxes in a Carton.

Price..... Per Gross, Net \$2 00

Sold only in Boxes of 3 Dozen.

HOME NIPPLES.

Superior Quality and Weight.

ARNOLD STEAM STERILIZERS.

As many persons prefer the method of sterilizing milk in bottles by the application of steam instead of boiling water, we are prepared to supply the trade with the ARNOLD STEAM STERILIZER, an apparatus designed especially for sterilizing by steam heat.

These Sterilizers are furnished in two sizes, as follows :

No. 1. Heavy Tin, Copper Bottom, with Rack, seven 8-ounce Bottles, graduated, and Cleaning Brush, \$3.00 each.

No. 2. Heavy Tin, Copper Bottom, with Rack, eight 8-ounce Bottles, graduated, and Cleaning Brush, \$3.50 each.

W. T. & CO.

ANTISEPTIC ATOMIZER.

The Tubes of this Atomizer are of glass, and the liquid sprayed is not brought in contact with either metal or rubber.

Price.....Per Dozen.....\$7.00

No. 4 COMPRESSION BOTTLE FAUCET.

Patented May 28, 1889.

This article is especially valuable for use in sick-rooms where Champagne, Apollinaris Water, or other effervescent liquids are to be administered at intervals, as the bottle can be kept tightly closed when not in use, and the gaseous qualities of the contents fully retained.

The Faucet is inserted into the mouth of the bottle as soon as the cork is withdrawn, and the nut screwed down, compressing the rubber sleeve on the plug, causing it to bulge out at the sides and making an air-tight joint.

Price

\$9.60 per dozen.

No. 10 CHAMPAGNE TAP.

Nickel Plated.

Price

\$10.80 per dozen.

BARCLAY No. 5 DRY CELL BATTERY.

NO FLUID REQUIRED.
